EXPERIENCE

Oracle Oct 2025 – Present
Applications Software Engineer - 2 *Gandhinagar, Gujarat*

- Led performance and scalability initiatives for Oracle SCM Supply Planning using Java, SQL, PL/SQL, and C++; investigated **50+ SQL queries and PL/SQL procedures** and optimized critical execution paths, reducing module load time by up to **35%**.
- Owned end-to-end delivery of multiple Supply Planning enhancements, translating requirements into technical designs and production-ready implementations; introduced significant code-design improvements adopted by internal teams and customer-facing workflows.
- Developed multiple **AI agents** to automate repetitive workflows, reducing manual effort by approximately **40%**; implemented failover strategies for reliable execution and enabled remote control of agent decisions and responses from mobile devices.
- Mentored **3+ junior engineers** and conducted **6+ technical knowledge-sharing sessions**, reaching **25+ engineers**; recommended improvements across code reviews, approvals, testing, and code integration to streamline engineering workflows.

Oracle July 2024 – Sept 2025
Applications Software Engineer - 1 *Gandhinagar, Gujarat*

- Investigated **200+ customer issues across 95+ customer PODs** through application log analysis and defect triaging, providing timely resolutions during regular operations and high-priority customer onboarding.
- Delivered production fixes and enhancements for Oracle SCM Supply Planning, collaborating with **Product, QA, and cross-functional engineering teams** to diagnose defects, validate fixes, and ensure reliable releases.

Iolite Softwares Jan 2024 – June 2024
Software Developer Intern *Ahmedabad, Gujarat*

- Developed full-stack features for an IP management system using **ASP.NET Core MVC, Angular, and SQL**, implementing encryption enhancements to strengthen application security.
- Optimized SQL queries and database operations, improving data retrieval performance by approximately **40%**.

Projects

CollectiWise | *Oracle AI Agent Studio, REST APIs, LLMs*

- Developed an agentic AI application to automate end-to-end data collection in **Oracle Supply Chain Planning Cloud**, reducing manual effort by **75%**.
- Implemented continuous monitoring and visual analytics across **35+ source systems** to track collection workflows, optimize run schedules, and automate orchestration.
- Integrated **mobile access** to the agent, enabling planners to manage workflows, make decisions, and approve actions with a few taps, without requiring a laptop or PC.

Online Ticket Booking System | Oracle ADF, Java, Oracle DB, JDeveloper

- Developed a role-based ticket booking application with **Organizer, Admin, and Customer** workflows, supporting event creation, seat allocation, dynamic pricing, bookings, cancellations, and refund management.
- Designed Oracle Database tables and implemented ADF Entity Objects (EOs) and View Objects (VOs); simulated payment failures and handled booking and seat-reservation scenarios.

SKILLS

Languages: Java, SQL, PL/SQL, C++, C#, Python, JavaScript, C
Frameworks & Tools: Oracle ADF, ASP.NET Core MVC, Angular, Django
Tools: Git, Oracle JDeveloper
Databases: Microsoft SQL Server, SQLite, Oracle DB SQL
AI & APIs: AI Agent Studio, REST APIs

EDUCATION

Nirma University September 2020 - June 2024
*Bachelor of Technology in Computer Science and Engineering (CGPA: **8.41** / 10)* *Ahmedabad, Gujarat*

ACHIEVEMENTS

- Selected as a **semifinalist in Oracle's internal AI Agent Hackathon**; CollectiWise was also selected for customer deployment to support planners' daily workflows.
- Solved **1,800+ DSA problems**; achieved **Specialist on Codeforces**, **Knight on LeetCode**, and a peak **CodeChef rating of 1796**; won the Codeadda Premier League university-wide competitive programming challenge (2021).
- Led Oracle volunteering initiatives from proposal to execution, coordinating volunteers and presenting project proposals to stakeholders for sponsorship approval.

Certifications

- **Oracle Cloud Infrastructure (OCI)** Generative AI Professional — Oracle — badge
- **Supervised ML (Regression & Classification)** — Coursera — certificate
